Methodology Statement: The Latino Immigrant National Attitude Survey has an overall sample size of 1,000 Latino immigrants and was fielded from April 23, 2025 through May 13, 2025. The data was collected through a blended approach, including web-based (n=741), and telephone interviews (n=259). Across both modes of data collection respondents had the opportunity to take the survey in either English or Spanish. The data was weighted to ensure that the demographics of the sample matched those defined by the U.S Census, ensuring that the data is representative of Latino immigrants nationally. *Data will be made publicly available at the ICPSR at the University of Michigan.
